Garibaldi aims to promote the use of the motorbike and the scooter at a moment in which more than ever moving around to work and for social purposes is needed and doesn't regard the helmet as a luxury item but as a reliable partner for those who use the motorbike as their main means of transport, for all the unique and unspeakable sensations that offers and for making their everyday life easier.

**Our products are Designed in Barcelona hand by hand with Spanish and Italian designers:** it's our way to pay tribute to our name Garibaldi, that comes from Italy, like our ancestors.... All the products in our various ranges are developed in our city, at our headquarters in the core of it, just 10 minute walk from the wonderful Barcelona beaches. Barcelona is one thriving city where many artists come to get inspired. Our expertise in design combines with our love for this sea which is surrounded by the green of the hills and results in our collection. The **Designed in Barcelona** approach means matching creativity to high quality standards. This concept of design is expressed in the Garibaldi clothes and helmets, products that boast a **Mediterranean identity**.

We express this vision of design in our vast array of products in order to meet your needs and offer you products that are good value for your money. The red 4 leaf clover in our logo represents **good luck and faithfulness**, we're keen to be your trustworthy motorcycle company and will never put you off.

Garibaldi has been manufacturing garments, gloves and accessories for motorbikers since 1972. At this first stage their founders **Josep Maria Guillamet** and **Isabel Garibaldi** mainly produced handmade competition leather suits and greasing garments in their **workshop in Igualada (Barcelona)** and signed up the best riders such as **Ricardo Tormo**,

**Sito Pons, Aspar, Alex Crivillé, Alex Barros, Carlos Checa, Sete Gibernau, Toni Elias, Dani Pedrosa, Jordi Tarrés, Marc Colomer and Carlos Mas.** Most of them became World Champions with Garibaldi: **18 World Champion titles** are the final result of this successful period. At that time most riders in Spain had their first leather suit made by Isabel Garibaldi, who was the soul of the company. Having free access to a handmade leather suit was an opportunity to start riding. She was a beloved person for all riders.

The company is well known today by the quality of our gloves (**heating gloves and Primaloft gloves**) and textile jackets, being the **Heritage jacket** the flagship of our brand. The **Wax Cotton Look** fabric is an evolution of the first spanish wax cotton barbour, known as the **Original Garibaldi barbour**. Isabel and his husband manufactured it following the English trends. They also became the exclusive distributor in Spain for the italian helmet manufacturer **Nolangroup** and held a **meaningful partnership of the group**. It was an intense relationship that lasted for more than 40 years until late 2019 when it was time to let go and build up an own range of helmets with the brand **Gari, diminutive of Garibaldi**, on the basis of this long-lasting experience.

The first open-face collection came in in the summer of 2020 and full-faces and flip-ups joined throughout 2021. The Gari Helmets were born in 2019 on the basis of the experience gathered since 1972 and are the perfect match for the Garibaldi garments. At the moment, a cohesive team manages the company. **Georgina Guillamet**, the founders' daughter, took over the lead in 2008. Since then, achieving excellence in all work aspects and fostering a high-quality culture has always been her purpose. Fabrics and suppliers are relentlessly seeked to guarantee an utmost safety and the best value for money.
